PROFESSIONAL SUMMARY

Results-driven Software Engineer with 5+ years of experience in full-stack development, specializing in JavaScript, TypeScript, Angular, React, Node.js, HTML5, CSS, and RESTful APIs. Experienced in designing, developing, and maintaining scalable enterprise applications and cloud-based solutions. Hands-on exposure to AI-powered chatbot solutions using LLM, RAG, AI Agents, and Flowise. Recognized for strong problem-solving, team collaboration, mentoring junior developers, and delivering efficient, scalable, and high-quality software solutions.

SKILLS

- **Web Technologies:** JavaScript, TypeScript, Angular (8–21), React, Node.js, HTML5, CSS3, SCSS, Tailwind CSS, RESTful APIs
- **AI & Generative AI:** LLM, RAG, AI Agents, Generative AI, AI Chatbots, Flowise
- **Databases:** PostgreSQL, MongoDB, Firebase (Basic)
- **Cloud:** AWS (Basic – S3, ECS)
- **Tools:** Git, GitHub, Jira, Visual Studio Code, Docker, DBeaver, MongoDB Compass
- **Testing:** Jasmine, Karma

PROFESSIONAL EXPERIENCE

Software Engineer | Vishleshan Software Solutions

Dec 2025 – Present

Projects: TATA Motors, Havells, Whirlpool

- Developed and maintained enterprise-scale applications using **Angular (14/17/19/21), TypeScript, HTML5, SCSS, and Tailwind CSS**.
- Built reusable Angular components, directives, pipes, and shared libraries to improve maintainability and development efficiency.
- Implemented form validation, authentication, authorization, route guards, and role-based access control.
- Developed unit tests using **Jasmine and Karma**, improving application reliability and code coverage.
- Used Git, feature branching, and pull request workflows for collaborative development.
- Collaborated with backend developers, QA engineers, and product owners to deliver features within project timelines.

Senior Software Engineer | Cateina Technology Solutions

June 2023 – Sep 2025

Projects: Account Aggregator, Global Smart, Universal Reconciliation, Codebase Chart Bot, Persona AI Chatbot, Role-Based Chatbot

- Developed responsive web applications using **Angular (12/14), React, Node.js, HTML5, CSS, and PostgreSQL**.

- Designed and implemented RESTful APIs, improving data processing efficiency by **30%**.
- Collaborated with cross-functional teams to design and deploy scalable cloud-based solutions on **AWS**.
- Developed an **AI-powered chatbot** integrated with the project codebase, enabling natural-language queries against documentation and application logic.
- Worked with **LLM, RAG, AI Agents, and Flowise** for AI-powered chatbot solutions.
- Mentored junior developers, contributing to a **15% improvement in team productivity and knowledge sharing**.
- Received **Best Team Award** and **Special Recognition** for outstanding contributions.

Software Engineer | Cloudesign Technology Solutions

Nov 2019 – Mar 2023

Projects: KJMC Finserv, SINE IIT Bombay, PB Custody, BetterQ Web, PWM, FreshR

- Built dynamic and user-friendly web applications using **Angular (8/10/12), HTML5, CSS, and Node.js**.
- Developed dynamic forms to improve flexibility and application efficiency.
- Participated in code reviews, debugging, and application maintenance.
- Maintained and upgraded legacy systems to support evolving business requirements.

EDUCATION

Master of Computer Application (MCA)

Manipal University Jaipur – Online | **Jul 2024 – Present**

Bachelor of Science in Information Technology (BSc)

University of Mumbai, Mulund College of Commerce | **Graduated May 2019**

CERTIFICATIONS & TRAINING

- Angular Certification
- Microsoft Cross-Platform Mobile Application Development
- Google AdWords Certification by Microsoft
- Soft Skills Certification – Attitudinal and Behavioural Change

ACHIEVEMENTS

- **Best Team of the Year 2023** – Cateina Technology Solutions
- **Best Recognition of the Year 2023** – Contributions to project success
- Successfully mentored **3 junior developers**, supporting skill development and productivity
